# Faculty of Environmental Management, Prince of Songkla University

focuses on teaching, research and innovation in environment and management. The faculty provides Master and PhD program, short-course, training course and general course that cover environmental issues such as Environmental Management, Sustainable Energy Management, Marine and Coastal Resources Management and Sustainable Tourism Management.

The faculty design curriculum to address the needs of a variety of students, including high school, undergraduate and graduate students, persons work in governance and private sectors, freelance, entrepreneurs and general public. The teaching and learning are organized in a Hybrid format, both Online and Onsite on weekdays and weekend.

The faculty has various activities that promote learning and enhance learners' skills, such as laboratory research, field work, work-integrated learning, academic seminars, training, conference and exhibition.

The faculty provides scholarships, research grants and travel grants for conference participation.

Secretary of Dean

The background features abstract geometric shapes in various shades of green and yellow. On the left, there are several overlapping circles and a large, irregular shape. A series of horizontal lines of varying lengths extends from the right side of these shapes. In the top right corner, there is a cluster of overlapping circles and a small yellow circle. The text "THANK YOU" is positioned in the center-right area of the image.

**THANK  
YOU**
